

2051 TIMBERLINE WOOD FLOORING ADHESIVE 5-YEAR PERFORMANCE WARRANTY

Taylor 2051 is guaranteed for the installation of wood parquet and engineered plank flooring to approved substrates as specified on the Timberline 2051 label. It is not recommended for foam backed wood parquet, stripwood, shorts, teakwood, rubberwood, stair nose, reducers or solid wood plank of any kind.

W.F. Taylor Co., Inc. warrants that 2051 will maintain its bond for five years from the date of installation. In the event of an adhesive induced failure within five years of the date of installation, Taylor will repair or replace the installation, including material and reasonable labor charges. Incidental and/or consequential damages are excluded

This warranty does not extend to or cover failures from improper installation, improper selection, preparation and use of subfloor materials or complaints relative to manufacturing defect in the wood flooring materials. Full compliance with our written installation instructions is required. This warranty does not cover damage to the adhesive or wood flooring from sink overflow, leaky plumbing, excessive water damage through use and care, improper maintenance, high alkali, hydrostatic pressure, excessive moisture or flooding associated with the subfloor or defective subfloor materials and conditions of uneven subfloors beyond manufacturers' and W.F. Taylor's specifications and tolerances.

W.F. Taylor Co., Inc. reserves the right to physically inspect and determine the cause for each claim. All claims repaired and/or replaced prior to inspection will void the warranty. This warranty is limited to one repair or replacement and in all cases is the sole remedy and obligation offered. This warranty is non-transferable.
